RE: Intake Submission: State of Rhode Island

Dear Mr. Tyler:

On behalf of the Rhode Island Commission for Human Rights (Commission), I have thoroughly reviewed the above-referenced intake questionnaire and accompanying statement. The specifics of your allegations as detailed in your intake submission also were discussed with the Commission's legal staff. After careful consideration of the events described in your submission, it has been determined that the Commission lacks jurisdiction over the situation you have described. The Commission enforces Rhode Island anti-discrimination laws in the areas of employment, housing, public accommodations, credit and delivery of services.

You may wish to consult with an attorney about other options available to you.

Sincerely,

Allison G. Cote
